

Tools comply with ASTM F1505 and IEC 60900 standards and help meet the requirements of OSHA 1910.331-335, NFPA 70E®, and CSA-Z462.

Nut Drivers

Nut Drivers

Cementex Nut Drivers are truly unique. Our thoughtful design allows access to tighter locations than any other Nut Driver on the market. We cover the shaft of the driver with two layers of insulation and the head with a single 10,000V tested layer. This allows us to provide the same double insulation protection and safety guarantee you've always known from Cementex. Superior insulating material and precise construction of our base tool allow us to provide the slimmest Insulated Nut Driver available so you are never sacrificing safety and protection.
